

PORTFOLIO CASE STUDY

Smart Financial Recovery Platform

From Strategy to Financial Model to Product Prototype

₹2–3 cr

Pilot investment ask

Deliverables —
strategy, model,
prototype, deck

Phase 0–4
Gated,
evidence-first
roadmap

Direct settlement to creditors
aligned to salary credit date

AUGUST 2026

DESIGNED BY: Nidhi Thakur

FP&A × Product Strategy × Financial Modeling × Digital Lending

1

01 — THE BUSINESS PROBLEM

THE PROBLEM

Three challenges. One opportunity to intervene earlier.

1

Customers juggle multiple EMIs

Three to five active loans and cards at once — five due dates against one salary credit date.

2

Lenders face rising delinquency

Stress builds quietly; by the time it's visible, collections cost and provisioning are already rising.

3

The opportunity: intervene earlier

Detect and consolidate before default — not after — to protect both the customer and the balance sheet.

2

02 — THE SOLUTION

Smart Financial Recovery Platform

A six-module platform vision —
launched through one focused pilot product:

MODULE

2

Smart EMI Consolidation Loan

- ✓ One loan
- ✓ One EMI
- ✓ Direct settlement to creditors

The customer **never handles** the settlement funds — the platform pays off existing high-cost obligations directly to each creditor, aligned to the customer's salary credit date.

WHAT I BUILT

An end-to-end solution — strategy, model, prototype, and executive presentation.

	1	Business Strategy Market sizing, competitive landscape, phased go-to-market	➤	- TAM, SAM, SOM assessment - Competitor benchmarking - Phased GTM roadmap (0–4)
	2	FP&A Financial Model 3-year P&L, unit economics, scenario & sensitivity analysis	➤	3-statement financial model - Unit economics per loan - Scenario & sensitivity (best/base/worst)
	3	Product Proposal Board-ready business case with governance and kill criteria	➤	- Investment ask & use of funds - Governance structure & gate framework - Clear success metrics & kill criteria
	4	Interactive Prototype A clickable, 12-state customer journey	➤	- End-to-end user flow 12 key screens - Branch flows (exception handling)
	5	Executive Presentation A 30-slide deck built for a CEO decision	➤	- Storyline: Problem → Solution → Impact → Ask - Data-led insights & financial impact - Clean, decision-ready presentation

End-to-end ownership: problem → strategy → model → prototype → executive ask.

04 — FINANCIAL IMPACT

FINANCIAL IMPACT

Strong unit economics. Scalable impact.

UNIT ECONOMICS — PER LOAN

%	Gross interest margin	₹4,800
₹	Fee income	₹2,400
₹	Credit cost (base case)	(₹1,800)
₹	Operating cost	(₹1,500)
₹	Net contribution / loan	₹3,900

₹18–22 cr

Illustrative Year-3 total business value,
if the pilot clears its gates

3-YEAR PROJECTION — MODULE 2 (₹ CRORE)

DISBURSEMENTS (₹ CR)

PBT (₹ CR)

5

05 — CLICKABLE PROTOTYPE

CLICKABLE PROTOTYPE

A 12-state customer journey, built and tested end to end.

1 NOTIFICATION

Lock-screen alert that a consolidation offer is ready

2 OFFER

Pre-qualified terms shown before any commitment

3 REVIEW

Customer reviews terms and the new single EMI

4 SETTLEMENT

Funds disbursed directly to each existing lender

BRANCH STATES
Also built and tested

Manual Review

Decline

Error / Exception

Partial Settlement

Appeal / Reconsideration

6

06 — EXECUTIVE RECOMMENDATION

EXECUTIVE RECOMMENDATION

A focused pilot. Clear governance. Measurable outcomes.

₹2–3 crore

Phase 0 pilot investment ask

Right-sized to validate the core assumption before any product or AI spend.

60–90 days

To validate the core assumption

Time-boxed pilot to generate evidence and de-risk before scale.

Named Governance

CEO, CPO, CRO and Compliance each own a specific gate.

Independent decisions at each gate. Kill criteria pre-defined.

5 Success Metrics

- 1 Customer validation
- 2 Approval rate
- 3 NPA / Delinquency
- 4 Unit economics
- 5 Retention / Repeat usage

Evidence-first Approach

Data-led go / no-go at each gate. Scale only after evidence.

PILOT ROADMAP (PHASE 0)

GATE 1

Problem Validation
Customer need is real and urgent

GATE 2

Solution Validation
Product / offer gets customer traction

GATE 3

Unit Economics
Sustainable economics at scale

GATE 4

Risk & Compliance
Credit, fraud, and compliance under control

GATE 5

Scale Decision
Go / pivot / kill with confidence

This is a capital-light, evidence-driven pilot — designed to protect customers and the balance sheet while unlocking profitable growth potential.
